Tango 2 cylindrical wall up-down light

IP65 /EN 60598/CLASS I //IK10

PRODUCT TYPE

Surface mounted Luminaire

Wall luminaires with a variety of reflectors and lamps with up and downward light distributions. Designed to illuminate the wall surface and for light accents on vertical surfaces. Low copper content die-cast aluminum housing and aluminum frame with integral anti-glare baffles. Stainless steel screws. Durable silicone rubber gasket and clear toughened glass. Single cable entry. Housing is treated with a chemical chromated protection before powder coating, ensuring high corrosion resistance. Integral electronic control gear. Anodized high purity aluminum reflector.

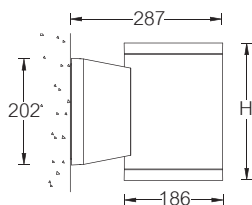

For horizontally mounted single lamp configurations a one piece multi directional anodized high purity aluminum reflector is used for up and down light distribution. Two lamp configurations use individual reflectors for up and down light distributions.
