

lumenalpha™ spot large

FULLY ADJUSTABLE, HIGH-OUTPUT LED SPOTLIGHT

The Lumenalpha Spot Large is a fully adjustable, high-output LED spotlight. Delivering up to 5000 lm, the luminaire provides a more flexible alternative to metal halide, with longer life, improved colour stability and lower energy consumption. It is available with Lumentalk, which allows digital dimming of individual luminaires over existing track installations. The luminaire offers a choice of outputs, beam angles, colour rendering options and accessories.

Performance summary

Based on Narrow (20°), 4000K, CRI 80+ (220/240V)

Nominal output [lm]	Delivered output [lm]	Power [W]	Efficacy [lm/W]
700	700	6,5	108
1000	921	8	115
1300	1,252	11	114
2000	1,952	17	115
3000	2,928	28	105
4000	3,839	41	94
5000	4,530	52	87

Outputs

700lm | 1000lm | 1300lm | 2000lm | 3000lm | 4000lm | 5000lm

Optics

- **Available with Lumentalk**
Enables smart, digital control of individual luminaire over existing track
- **High-output**
Up to 5000 lumens
- **Choice of beam angles**
10°, 20°, 40°, and 60° available
- **Exceptional colour rendering**
CRI 80+ and CRI 95+ options
- **Less than 5% light loss at 6 years**
Lumen maintenance of L95 B10 20,000 hrs, L95 B50 55,000 hrs, L70 B10 225,000 hrs (Ta 40 °C)
- **5-year limited warranty**
Standard 5-year limited warranty for complete assembly

Control options

- Non-dimming
- 1-10V, 1% linear
- DALI 1% linear
- Phase dimming
- Rotary Dimmer
- **lumen talk**
